Notes

- Except as noted below, data is from the United States Census Bureau, American Community Survey. The figures represent five-year estimates averaging the period from 2019 through 2023.
- EITC and CTC data is from the United States Internal Revenue Service, as compiled by the Center on Budget and Policy Priorities for tax year 2021. See apps.cbpp.org/program-participation.
- Share of households with incomes below \$200,000 per year represents share of tax filers with federal adjusted gross income below \$200,000 in tax year 2021, compiled from IRS data by ZIP code.
- Rates of food insecurity in 2022 were estimated using American Community Survey data on district demographics and economic conditions, following a methodology used by Feeding America. See feedingamerica.org/research/mapthe-meal-gap/how-we-got-the-map-data.
